#### THE PEOPLE RULE.

The people rule : New York is not to be sed ; that, in brief, is the menning of the Republican nomination of Nicola and Man-TIME and its eager indorsemen by thousands of honest Democrats.

The result is a triumph of the democratic principle. "This is a government where the vill of the people is the law of the land," add ULYSSES S. GRANT. It was and is the will of the people that both the men who sonified a determined prosecution of Beibers and Boodlers should be continued in service of Justice. The Democratic arty, under the fatal guidance of its small es, defied this will and insulted this ference. The Republican Convention bowed to the will and granted the wish.

THE WOLLD has special reason for satistion in congratulating the people of New York that their will is to be law. For this and we have striven. To this result we shall continue to dedicate our best service.

## AN INSPIRING COINCIDENCE.

Justice has been an exile from the tower of City Hall. Her scales were rusty. Her sword was broken. She could not see for the bandage across her eyes.

But she is coming back to-day. Her scales are readjusted. Her broad sword glistens. There is no blindfold on her eyes.

Justice has long struggled at odds in our city affairs. She has been shackled by the es. She has been gagged by the Boodlers. And finally the corrupt "comof criminals and semi-criminals conspired to "knife" her in the public square.

But Justice to-day is on the verge of triumph. The people have rallied to her me. NICOLL and MARTINE are blazoned on their standard. The forces of corruption will be put to rout.

#### A PATAL DEFECT.

Nobody has objected to Col. Fellows for District-Attorney because he is not rich. For honest poverty, meeting every duty bravely, we have the highest respect.

But there is a general feeling, inspired by ound reasons, that a man who habitually lives beyond his income, mortgages his salary in advance, and who struggles with judgments instead of curtailing his expenses, is not a proper person to put in a position of consibility beset by many temptations. A man who does not take care of his private ations is not the best man to trust with public obligations.

A public prosecutor, of all officials off the ch, needs to be independent, free from record or political debts, inflexibly true to ty and proof against temptation. Col. Persows is not such a man.

BROOKLYN MEN AFTER VOTES.

Alfred C. Chapin is taking a healthy interest in his canvass for Mayor of Brooklyn. When he called at the Democratic headquarters this morning to see how his campaign was doing ex.Judge Delmar and Ed Kollmeyer informed him that there was nothing the matter with his boom so far and that encouraging returns had been received from the ward leaders.

On Thursday evening Mr. Chapin is booked to talk to the people at the Palace Rink on the issues of the campaign, and on next Tuesday Gov. Hill, who thinks a great deal of Chapin, will help him along at the Academy of Music. Brooklynites have been very fond of Gov. Hill ever since his memorable "I am a Democrat" speech. Ex.-Gov. Pennsylvania, another old-timer that Brooklyn Democrats warm up to, will probably be on hand with Gov. Hill.

While all these Democratic preparations are going on the Republicans are not idle. They have made arrangements for a big massmeeting at the Palace Rink next week and Senator Hiscock, ex-Senator Warner Miller and Congressman "Deacon "White are down for speeches. Col. Andrew D. Baird, who wants to be Chief Magistrate of the city, rolls around the city daily in a light wagon picking up promises to vote where he thinks they will be carried out on election day. He is strong among workingmen because he was the first large employer to observe the Eight-Hour law and he has never had a strike among his two or three hundred employees. Just look at the situation for a minute. The whole press is the advocate of Nicoli for District-Attorney. That is significant because the press is the multiform organ of the people. It is closer to the people's life; it knows more of their feelings. their hopes, their conscience, their demands, than any other institution in the country. When it is unanimous, as in the present instance, it is almost dead sure to be right. (SPECIAL TO THE EVERING WORLD.) Boston, Oct. 26.—Democrats in Boston and in fact all over the State, are greatly encouraged by the outlook for November. The publication of General Ames's war record in Sunday's Gobe has aroused intense excitemeut all over the State. The Grand Army men do not take kindly to the man from North Easton, at best, and this exposure has added material strength to the chances of Henry B. Lovering, whose war record

of Henry B. Lovering, whose war record is well known.

Registration closed in Boston yesterday and a hurried calculation, with estimates of the registration at the ward offices last evening, gives a total of 16,023 names placed on the supplementary voting lists. This would make a total number of 60,316 names on the voting lists, or 4,451 more than were on the lists for the State election of last year, and over 2,600 more than were on the final lists last year. This increase is partly due to an increased registration, signs of which were to be seen some days ago, but in larger part to the increase of 3,480 names on the first list of this year, as compared with the first list of this year, as compared registration is mainly Democratic.

CONCORD, N. H., Oct. 26 .- Perhaps the most listurbed man in the State to-day is William E. Chandler. At the time of his election to the United States Senate the rival candidates were not of a dangerous sort, as matters then stood. Mr. Chandler's term expires in 1889 and he is exceedingly ambitious to succeed himself. In the railroad fight he has claimed to be neutral. Whatever editorials he has written for his paper, the Concord Monitor, have been of Utopian character, with no particular reference to the railroad contest. By his veto of the Hazen bill Gov. Sawyer By his veto of the Hazen bill Gov. Sawyer has come to be prominently mentioned, together with others, for the United States Senate in 1889, and Mr. Chandler has sunk into insignificance in connection therewith, and his disquietude is very marked. It is a well-known fact that Mr. Chandler's election was only secured by the most strenuous exertions of his friends political, and that, had there been an available candidate of any considerable strength, the ex-Secretary of the Navy could not have been elected.

It is currently reported that Mr. Chandler owes his election to Frank Jones, who re-

owes his election to Frank Jones, who re-fused to support him, in accordance with a mutual agreement made before the session of the Legislature opened. The position he has taken in the railroad fight has estranged the greater part of his influential friends, and it is very doubtful if he is returned to the United States Senate from New Hampshire.

## THANKSGIVING DAY, NOV. 24.

Proclamation Issued by the President of the United States. WASHINGTON, Oct. 26. - The following

proclamation was issued late vesterday afternoon.

The goodness and the mercy of God which have followed the American people during all the days of the past year claim their grateful recognition and humble accommoded ment. By his omnipotent power He has protected us from war and pesihence, and from every national calamity. By

tent power He has protected us from war and pesilience, and from every national calamity. By its gracious favor the earth has yielded a generous return to the labor of the husbandman, and every path of honest toil has led to comfort and conteminent. By his loving kindness the hearts of our people have been replenashed with fraternal sentiment an patriotic endeavor, and by His unerring guidance we have been directed in the way of national prosperity.

To the end that we may, with one accord, testify our grantude for all these blessings. I, Grover Cleveland, President of the United States, do hereby designate and set apart. Thursday, the twenty-fourth day of November next, as a day of thanksgiving and prayer, to be observed by all the people of the land.

On that day let all secular work and employment be suspended and let our people assemble in their accustoned places of worship and with prayer and songs of praise give thanks to our Heavenly Father for all that he has done for us, while we humbly implore the forgiveness of our sins and a continuance of His mercy.

Let families and kindred be reunited on that day and let their hearts, filled with kindly cheer and affectionate reminiscence, be turned in thankfulness to the source of all their pleasures and the Giver of all that makes the day giad and Joyous.

And in the midst of our worship and happiness let us remember the poor, the needy and line unfortunate, and by our gifts of charity and ready benevolence let us increase the number of those who with grateful hearts shall join in our thankselving. who with grateful hearts shall join in our thank giving.
In witness whereof, I have set my hand and caused the seal of the United States to be hereunto

affixed.

Done at the city of Washington this twenty-lifth day of October, in the year of our Lord one thousand eight hundred and eighty-seven and of the incependence of the United States the one hundred and twelfth.

"I will bet," said Coroner Nugent, "that over five hundred Democrats have told me they were against the Union Democratic ticket." "The County Democrats," remarked one of the Republican leaders, "would be willing to sell out the State ticket for votes for Fellows."

An Irving Hall committee was present to watch the proceedings. Commodore Tooker threw up his hat when Nicoll and Martine were nominated.

Ex-Assemblyman Van Allen would have liked to have been nominated for City Court Judge. He opposed the placing of Demo-crats on the ticket.

# KNIGHTS STANDING FIRM.

THEY ARE UNWILLING TO COUNTENANCE A SPLIT IN THE ORDER.

Some of Them. However, While Supporting the Powderly Administration, Sympathize With the Condemned Anarchists-Master Workmen to Address an Aparchist Meeting in Union Square Saturday.

The reported split in the order of the Knights of Labor, and the circular of the socalled "Provisional Committee," calling upon the malcontents or opponents of the present administration of the Knights to reorganize the order, is the all-absorbing topic of conversation in the organized trades and labor unions and the assemblies of the Knights of Labor.

The friends of General Master Workman Powderly do not consider the opposition as of sufficient calibre to break up the order, and characterize the efforts of his opponents as of a chronic pature and unworthy serious thought. A few take a conservative view. and while they are not satisfied with the course of the General Master Workman and of the General Assembly in some matters, they are pleased with it on the whole and think that the policy pursued and that outlined by Mr. Powderly and his strongest supporters at the late convention will redound to the ultimate good of the Order and tend to increase its membership. Still there are leaders who are opposed to

the General Master Workman, and they have a large following : but they do not believe in going outside of the Order to obtain reforms, and will endeavor by all the means in their power to bring about a change in the administration. Some of these leaders are opposed to the action of the General Assembly in refusing to entertain the resolution presented by Master Workman Quinn, of District Assembly No. 49, asking the Governor of Illinois for mercy in the case of the condemned Anarchists. These same men, however, are opposed to any st-tempt to create a division in the order, and openly declare that this is the last year of Mr. Powderly and the present General Ex-ecutive Board, and that a radical change will take place when the next General Assembly meets.

meets.

The most zealous supporters of Mr. Powderly, on the other hand, assert that he is the only man in the order at the present time who is capable of administering its affairs in a capable and sensible manner and who commands the respect of the public at large.

The question uppermost in the minds of

a capable and sensible manner and who commands the respect of the public at large.

The question appermost in the minds of the Knights is the action with reference to the condemned Anarchists, and this is said to be the cause of the present excitement and the opponents of Mr. Powderly are said to have taken advantage of it to create a division and form a new organization. These opponents are in a hopeless minority, as shown in the proceedings of of the General Assembly, where some of the leaders who formerly opposed Mr. Powderly became his warmest friengs and supporters, and are willing to acknowledge that, after all, he is the best man for the head of affairs in the order.

Interviews had with prominent Knights show the sentiment which prevails among the District Assemblies in this city:

John J. Bealin, one of the most active members of District Assembly in the order, having a membership of 50,000, said: "I do not think that there will be any serious withdrawais from the order. The legislation of the late General Assembly will result in the ultimate good of the order, and will tend to increase its membership largely within the next year."

James P. Archibald, of the Paper-Hangers' Local Assembly, and Paul Mayer, of the United Clothing-Cutters, expressed confidence in General Master Workman Powderly and said that the order was on a better footing than ever and would largely increase its membership.

and fairness and said they did not believe a split would ever occur in the order.

Thomas J. Ford, of the United Brassworkers, a body of 5,000 men under the jurisdiction of No. 49, said: "The action of the General Assembly will increase the membership. As a whole the legislation meets my approyal, especially that part of it which encourages the formation of trades districts. I have not paid any attention to the circular of the Provisional Committee of Chicago. I believe that the disposition is to harmonize, and all concerned will eventually come to an understanding that will result in the general

derstanding that will result in the general good."

Timothy Putnam, a prominent figure in No. 49, said: "The men who are most in sympathy with the Anarchists are the most desirous of remaining in the order. The progressive men of to-day have no such field as they have in the Knights of Labor. All of the kickers are not Anarchists; for instance, George Murray, of No. 64, the Printers' District Assembly. Buchanan may think that he is an Anarchist, but he isn't. John Morrison, of No. 126, and Buchanan are the only real kickers in the order and I believe that they are at the bottom of the present movement, Morrison and his followers are really not in the order. No. 49 is the only district assembly that instructed its delegates to do all in their power to secure a new trial for the condemned Anarchists. If it were the Anarchists who desire to get out of the order, how do you account for the large mass-meeting which is fo be held in Union Square on Saturday evening?"

Mr. Putnam then read the names of the following District Master Workmen who are to address he meeting, and whom he said are in sympathy with the movement in behalf of

Mr. Putnam then read the names of the following District Master Workmen who are to address he meeting, and whom he said are in sympathy with the movement in behalf of the condemned men: James E. Quinn, of No. 49; A. A. Hanley, No. 197, of New Jersey; M. J. Kelly, No. 91; F. F. Donovan, No. 64; J. R. Manson, No. 68, of Troy; J. J. Daly, No. 183, and E. J. Hall, No. 198, Messrs. T. B. Maguire, Bailey, Barry, Coleton and Aylesworth, of the General Executive Board of the order, have been invited and some of them will be on hand. Messrs. Victor Drury and Hugh Greenan, of No. 49, will also deliver addresses.

Mr. J. D. Dulea, of No. 91, favored Mr. Powderly's administration, but was also in sympathy with the movement for aiding the condemned men to obtain a new trial. He is opposed to any division in the order or the attempt to form any new organization.
